

Johnny Olszewski

Full Stack Software Engineer, Marine Veteran

johnolszewskim@gmail.com • (203) 300-0973 • San Diego, CA

LinkedIn: johnny-olszewski-m • GitHub: johnolszewskim

PROFESSIONAL SUMMARY

Former Marine Officer and Full Stack Engineer, combining military leadership with modern tech expertise. Focused on building secure, scalable solutions through disciplined engineering and rapid learning.

EXPERIENCE

ResMed – Associate iOS Engineer

San Diego, CA | March 2024–Present

- Develop and maintain features impacting 3.5M+ active users while migrating legacy UIKit to SwiftUI.
- Integrate AWS AppSync and implement cloud-native architecture for real-time data sync between mobile clients, ResMed hardware and AWS services.
- Collaborate with cross-functional Agile teams using JIRA for sprint planning, Git for version control, and conduct thorough code reviews to maintain high code quality standards
- Implement secure, scalable solutions following cloud best practices for data publishing and consumption in healthcare technology

Prize LLC – Founding Software Engineer

Remote (Part-time) | November 2023–May 2024

- Established engineering workflows and CI/CD pipelines using Docker and Kubernetes for container orchestration in cloud environments
- Architected full-stack applications using JavaScript, TypeScript, React, and Node.js with Neo4j database, implementing modern cloud and data management capabilities
- Drove technical decisions for scalable infrastructure management and data governance in startup environment

United States Marine Corps – Captain, F/A-18 Hornet Weapon Systems Officer (WSO), Naval Flight Officer (NFO)
Various Locations | June 2017–February 2024

- Mastered, managed and employed weapons systems and capabilities of F/A-18D Hornet
- Facilitated qualifications and syllabus completion of replacement aircrew by using operations expertise to manage production as Flight Schedules Officer
- Managed occupational health and safety programs, identified hazards and implement controls as Safety Officer for squadron of over 500 Marines and sailors

PROJECTS

Finance.ai – Full Stack Data Management Platform

- Developed privacy-focused financial data platform using JavaScript, TypeScript, Python, and SQL for secure data publishing and consumption
- Implemented responsive React frontend with modern frameworks, enabling powerful user experiences for financial data management
- Designed RESTful APIs with FastAPI/Python and PostgreSQL database, implementing robust data governance and cloud-based infrastructure management

EDUCATION

Virginia Tech – M.S. Information Technology

2021 – 2023

Software Engineering, Healthcare I.T., Cybersecurity Management

University of Richmond – B.A. Computer Science

2012 – 2016

French Minor

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java, SQL, Swift

Frontend Technologies: React, React Native, SwiftUI, UIKit, Redux, Material-UI, Tailwind CSS

Backend Technologies: Node.js, FastAPI, Django, RESTful APIs

Databases: PostgreSQL, MySQL, NoSQL (Neo4j, DynamoDB)

DevOps & Tools: CI/CD, Git, GitHub, JIRA, Agile/Scrum

CERTIFICATIONS

Security Clearance: Previously held Secret clearance (U.S. Marine Corps)

Private Pilot Certificate – FAA (2021) • **Open Water Diver** – PADI (2022)
