

Johnny Olszewski

johnolszewskim@gmail.com | (203) 300-0973 | San Diego, CA | linkedin.com/in/johnny-olszewski-m/

After leaving the military, I started in engineering to build a strong technical foundation. I knew I would benefit from this technical experience even if I moved away from purely technical roles. My strength as a product manager is leveraging that experience to understand engineering constraints; then balancing those limitations with business goals to prioritize effort to achieve outcomes. Using my leadership experience from the military and technical experience from engineering, I am equipped and excited to drive diverse impact in an effort to solve user problems.

PROFESSIONAL EXPERIENCE

Resmed

Project Manager (Secondment)

San Diego, CA

OCT 2025 - PRESENT

- Define product vision and desired outcomes for new team to support and implement a custom mobile app experimentation platform for a 3+ million active user population.
- Manage stakeholder communications and expectations to prioritize developer effort across work streams including support for in-app experimentation, platform enhancements and maintenance and tech debt.
- Oversee and prioritize Jira backlog, generate product documentation, planning documents and other various products to share team progress and accomplishments.

Resmed

iOS Engineer

San Diego, CA

MAR 2024 - PRESENT

- Develop, maintain and iterate on iOS app features using both UIKit and SwiftUI to achieve desired user experiences.
- Integrate AWS AppSync, Amplify, Apollo, GraphQL and implement features for real-time data sync between mobile clients, Resmed hardware and AWS services.
- Utilize Swift Testing/XCTest and Cucumber tests, update and maintain GitHub Actions Workflows and modify tests for Fastlane screenshots.
- Collaborate with cross-functional Agile teams using Jira for sprint planning, Git/GitHub for version control, and conduct thorough code reviews to maintain high code quality standards.
- Implement secure, scalable solutions to protect patient data and ensure HIPAA compliance.

Prize LLC

Founding Software Engineer

Remote

NOV 2023 - MAY 2025

- Established engineering workflows and CI/CD pipelines using Docker and Kubernetes for container orchestration in cloud environments.
- Architected full-stack applications using TypeScript, React, and a Django server with Neo4j database.
- Drove technical decisions for scalable infrastructure management and data governance in a startup environment.

United States Marine Corps

Captain, F/A-18 Hornet Weapon Systems Officer (WSO)

Various Locations

JUN 2017 - FEB 2024

- Mastered, managed and employed weapons systems and capabilities of F/A-18D Hornet.
- Facilitated qualifications and syllabus completion of replacement aircrew by using operations expertise to manage production as Flight Schedules Officer.
- Managed occupational health and safety programs, identified hazards and implemented controls as Safety Officer for squadron of over 500 Marines and sailors.

EDUCATION

Virginia Tech

Software Engineering, Healthcare I.T., Cybersecurity Management

M.S. Information Technology

University of Richmond

French Minor

B.A. Computer Science

TECHNICAL SKILLS

- **Languages:** Swift, JavaScript, TypeScript, Python, SQL, Java
- **Frontend:** SwiftUI, UIKit, React, Next.js, Tailwind CSS
- **Backend:** Node.js, FastAPI, Django, RESTful APIs, GraphQL
- **DevOps & Tools:** Docker, CI/CD, Git, GitHub Actions, Cucumber, XCTest, AWS
