Full Stack Engineer and former Marine aviator. I'm passionate about how we can use technology to enhance our processes and solve problems. I enjoy building secure, dynamic software that is thoughtfully architected and easy to maintain. I want to be part of a high-performing team building something meaningful and impactful.

PROFESSIONAL EXPERIENCE

Resmed

San Diego, CA

Associate iOS Engineer

MARCH 2024–PRESENT

- Develop and maintain features impacting 3.5M+ active users while migrating legacy UIKit to SwiftUI.
- Integrate AWS AppSync, Amplify, GraphQL and implement features for real-time data sync between mobile clients, Resmed hardware and AWS services.
- Utilize Swift Testing/XCTest and Cucumber tests to ensure high code quality standards. Update and maintain GitHub Actions Workflows. Modify tests for Fastlane screenshots.
- Collaborate with cross-functional Agile teams using JIRA for sprint planning, Git/GitHub for version control, and conduct thorough code reviews to maintain high code quality standards.
- Implement secure, scalable solutions following cloud best practices for data publishing and consumption in healthcare technology.

Prize LLC

Remote (Part-time)

Founding Software Engineer

NOVEMBER 2023–MAY 2025

- Established engineering workflows and CI/CD pipelines using Docker and Kubernetes for container orchestration in cloud environments.
- Architected full-stack applications using TypeScript, React, and a Django server with Neo4j database.
- Drove technical decisions for scalable infrastructure management and data governance in a startup environment.

United States Marine Corps

Various Locations

Captain, F/A-18 Hornet Weapon Systems Officer (WSO), Naval Flight Officer (NFO)

JUNE 2017–FEBRUARY 2024

- Mastered, managed and employed weapons systems and capabilities of F/A-18D Hornet.
- Facilitated qualifications and syllabus completion of replacement aircrew by using operations expertise to manage production as Flight Schedules Officer.
- Managed occupational health and safety programs, identified hazards and implemented controls as Safety Officer for squadron of over 500 Marines and sailors.

PROJECTS

Finance.ai – Full Stack Data Management Platform

- Develop a privacy-focused personal finance platform enabling secure transaction tracking and budget management through a fast, customizable interface.
- **Front-end:** Build responsive React/TypeScript frontends with Redux Toolkit, Tailwind CSS, and Material-UI, featuring real-time filtering and Supabase integration.
- **Back-end:** Design RESTful APIs with FastAPI/Python and PostgreSQL, implementing modular service-oriented architecture for data management.
- **Infrastructure & DevOps:** Deploy to Google Cloud Run and Cloudflare. Implement CI/CD pipelines using GitHub Actions and Docker.

EDUCATION

Virginia Tech

2021–2023

M.S. Information Technology

Software Engineering, Healthcare I.T., Cybersecurity Management

University of Richmond

2012–2016

B.A. Computer Science

French Minor

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Java, SQL, Swift
- **Frontend Technologies:** React, React Native, SwiftUI, UIKit, Next.js, Redux, Material-UI, Tailwind CSS
- **Backend Technologies:** Node.js, FastAPI, Django, RESTful APIs
- **Databases:** PostgreSQL, MySQL, NoSQL (Neo4j, DynamoDB)
- **DevOps & Tools:** CI/CD, Git, GitHub, JIRA, Agile/Scrum

CERTIFICATIONS

- **Security Clearance:** Previously held Secret clearance (U.S. Marine Corps)
- **Private Pilot Certificate** – FAA (2021)
- **Open Water Diver** – PADI (2022)
